## MEDICARE REPORTING REQUIREMENTS

**Timonium, Maryland – March 2, 2009:** New Medicare reporting requirements are slated to take effect July 1, 2009. Because of the seriousness of non-compliance, The Risk and Insurance Management Society selected this topic as one of their scheduled sessions for risk professionals, carrier representatives and third party administrators during their Annual Conference this April in Orlando. Bill Van Wambeke of M Hayes has been selected as one of the three panelists for this session.

Bill is General Counsel for M Hayes, a Baltimore-based managed care company, where he is responsible for general legal guidance as well as oversight of the Medicare Set-Aside program. Prior to joining M Hayes in January of 2006, he was national workers compensation group counsel for a major property and casualty insurer. In that position, Bill was responsible for workers compensation litigation management, complex case oversight, and compliance matters such as HIPAA and the Medicare Secondary Payer Act. He is a member of two legislative committees in Washington working on Medicare Reform and was a principle drafter of HR 2549. He has lectured extensively on Medicare compliance issues.

For more information contact Bill Van Wambeke at 410-628-4050, ext 132.
